List of Figures

Figure	Title	Page
2.1	Current Scenario (Isolated UMIS and LMS integrated via users)	34
2.2	Proposed Solution Presenting a Service Layer as Intermediary between UMI, LMS, and Users	35
3.1	Adaptive e-Learning Model Components	41
3.2	Scenario 1 of Adaptive e-Learning Model “New Student”	46
3.3	Scenario 2 of Adaptive e-Learning Model “Studying Student”	47
3.4	Scenario 3 of Adaptive e-Learning Model “Due Exam Student”	48
3.5	Scenario 4 of Adaptive e-Learning Model “Suspended Student”	49
3.6	Complete Adaptive e-Learning Model	51
3.7	Recommend LOs for Instructor based on Analysis of Learning Profiles Process	53
3.8	Formal and Informal Feedback Processes Synchronization during Lecture	55
3.9	Recommended LOs for Students based on Upcoming Lecture Topics and their Preferences	56
3.10	IT Architecture Specifications to Enable Presented Adaptive Models	60
3.11	Proposed Model Layered Architecture	61
3.12	Percentage of Students per Assessment Time	72
3.13	Bar Graph of Marks Average per Different Student Groups	73
3.14	No. of Students Achieving Grade Range from 20 to 30 Categorized by Group	73
3.15	No. of Students Achieving Grade Range from 30 to 40 Categorized by Group	73
3.16	No. of Students Achieving Grade Range from 40 to 50 Categorized by Group	73
3.17	Quiz 1 Groups’ Percentage Comparison	76
3.18	Quiz 1 Time Consumption Comparison	76
3.19	Quiz 1 Scored Marks Comparison	76
3.20	Quiz 2 Groups’ Percentage Comparison	76
3.21	Quiz 2 Time Consumption Comparison	76
3.22	Quiz 2 Scored Marks Comparison	76
3.23	Quiz 3 Groups’ Percentage Comparison	76
3.24	Quiz 3 Time Consumption Comparison	76
3.25	Quiz 3 Scored Marks Comparison	76
3.26	Quiz 4 Groups’ Percentage Comparison	77
3.27	Quiz 4 Time Consumption Comparison	77
3.28	Quiz 4 Scored Marks Comparison	77
3.29	Quiz 5 Groups’ Percentage Comparison	77
3.30	Quiz 5 Time Consumption Comparison	77
3.31	Quiz 5 Scored Marks Comparison	77
3.32	Quiz 6 Groups’ Percentage Comparison	77
3.33	Quiz 6 Time Consumption Comparison	77
3.34	Quiz 6 Scored Marks Comparison	77
3.35	Quiz 1 Defined Intersection Students	78
3.36	Quiz 2 Defined Intersection Students	78
3.37	Quiz 3 Defined Intersection Students	78
3.38	Quiz 4 Defined Intersection Students	78
3.39	Quiz 5 Defined Intersection Students	78
3.40	Quiz 6 Defined Intersection Students	78
4.1	Proposed Intelligent Features	88
4.2	Intelligent Online Lecture LOs Advisor Flow Diagram	93

4.3	Intelligent Study Plan Advisor Flow Diagram	100
4.4	Intelligent Time-to-Learn Topic Calculation Flow Diagram	102
4.5	Personalized Intelligent Recommender e-Learning Overview	104
4.6	LOs Finding, Gathering, and Analyzing “Phase One”	107
4.7	Personalized Supervised Automatically Generated LOs List “Phase Two”	110
4.8	Intelligent Agenda Study Time Planner	112
4.9	Intelligent Meeting Manager for Suspended Students Specifications	114
5.1	Student State Transition Diagram	121
5.2	Application Loading Screen	121
5.3	Welcome Message indicating the Need to Build Learning Profile	122
5.4	Students Learning Profile Manager Database Tables	123
5.5	Student Learning Profile Manager Screen – General Learning Profile	124
5.6	Student Learning Profile Manager Screen – Felder Learning Profile	124
5.7	Student Learning Profile Manager – Felder Report	125
5.8	Student Learning Profile Manager Screen – ATLAS Learning Profile	126
5.9	Student Learning Profile Manager Screen – Brain Works Learning Profile	126
5.10	Student Learning Profile Manager – Brain Works Report	127
5.11	Students Usage Manager Database Tables	128
5.12	LOs Manager from Instructor’s Portal	128
5.13	LOs Search from Instructor’s Portal	128
5.14	LOs Metadata Tables – Part I	129
	LOs Metadata Tables – Part II	130
5.15	Learning Objects Recommendation Process Database Tables	131
5.16	Crawler Package Diagram	132
5.17	Crawler Source Code	133
5.18	Document Processor Phases	134
5.19	Stemmer Module Pseudo Code	136
5.20	WordNet Relational Database Tables	137
5.21	Intelligent LOs Recommender Class Diagram	138
5.22	Extracted Keywords and TF From Instructor’s Portal	139
5.23	LOs Recommendation List from Instructor’s Portal	139
5.24	Intelligent LOs Recommender in Action	139
5.25	Information Retrieval Evaluation Results of Intelligent LOs Recommender	140
5.26	Keywords based LOs Search, TF-IDF Calculation for LOs Search Results	140
5.27	Tokenization and Query Expansion Process in action	140
5.28	Intelligent Meeting Manager for Suspended Students Database Tables	142
5.29	Intelligent Meeting Manager for Suspended Students Class Diagram	143
5.30	Intelligent Meeting Manager for Suspended Students Data Access Layer Class Diagram	144
5.31	Document Classifier Class Diagram	145
5.32	Student Learning Environment	147
5.33	Learn Via Questions Main Screen	148
5.34	Learn Via Questions – Quiz Screen	148
5.35	Instructor’s Portal	148
6.1	Optimization Lifecycle	153
6.2	Learning Objects Reading Time in Seconds	161
6.3	Learning Objects Tokenization Duration in Seconds	162
6.4	Learning Objects Term Frequencies Calculation Times in Seconds	163
6.5	Learning Objects Keywords Insertion Times in Seconds	164

6.6	Learning Objects Tokenized No. of Words vs. Total No. of Words	165
6.7	Course Objectives Extracted and Expanded Keywords vs. Tokenized No. of Words vs. Total No. of Words	166
6.8	Learning Objects Optimized Keywords Insertion Times in Seconds	167
6.9	Precision Evaluation of Proposed Intelligent LOs Recommender	171
6.10	Recall Evaluation of Proposed Intelligent LOs Recommender	172
6.11	F-Measure Evaluation of Proposed Intelligent LOs Recommender	172
